Measuring Harvest Loss - Harvest Weed Seed Control- Harvester Fire Prevention

Local growers and advisors are invited to join us for free half day harvester forum to share their practices and learn from the experiences of others on harvest loss reduction, harvest weed seed control and prevention of harvester fires.

This half day workshop will provide growers and advisors an opportunity to learn from others in their region about the different strategies currently being used to control harvest weed seeds as well as practical information about where to measure losses during harvest.

The Harvester Forums will be a facilitated event at a grower property with presentations by industry experts to help to drive the conversation and help growers get more grain in the bin and less on the ground.

Forum leaders:

- Greg Condon (Grassroots Ag)
- Rod Gribble (Australian Custom Harvesters)
- Warrack Finlay (Primary Sales)

Program:

- Understanding the impact of harvest loss, how to measuring it and how to change your harvester to reduce losses
- HWSC latest information, sharing how to set-up for effective HWSC using Mills systems (iHSD, Seed Terminator, SCU) Chaff Decks & Chaff Lining
- Reducing the risk of harvester fires

REGISTRATIONS:

Email: matt@farmlink.com.au

Attendance at this event will be limited due to COVID-19 restrictions. Registrants and attendees will be asked to provide contact information in line with COVID-19 event requirements
