

Canola Insect Webinar

Friday, September 6, 2019 12noon-1pm

GREEN PEACH APHID & APHID PARASITOID WASPS IN CANOLA

- > Gain the latest insights on green peach aphid management in canola, including identification, monitoring and resistance management, and the latest on aphid parasitoid wasp research in grains.
- > Hosted by RMCG, join speakers *Dr Jessica Lye (cesar)*, *Julia Severi (cesar)*, *Samantha Ward (University of Melbourne)* and *Phil Bowden (AOF and FarmLink)* in this interactive and practical session.

Join online from the comfort of your home, or if you're nearby, come and join in the Animal Health Issues of Grazing Canola at Wallendbeen, which will conclude with a live screening of the webinar.
